                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     glyceraldehyde-3-phosphate dehydrogenase (EC 1.2.1.12) - ra
N;Alternate names: triose phosphate dehydrogenase
N;Contains: uracil DNA glycosylase (EC 3.2.2.), nuclear
C;Species: Oryctolagus cuniculus (domestic rabbit)
C;Date: 16-Nov-1995 #sequence_revision 08-Feb-1996 #text_ch
C;Accession: JC4309; I46482
R;Applequist, S.E.; Keyna, U.; Calvin, M.R.; Beck-Engeser,
Gene 163, 325-326, 1995
A;Title: Sequence of the rabbit glyceraldehyde-3-phosphate
A;Accession: JC4309; MUID:96011658
A;Accession: JC4309; MUID:96011658
                                                                                                                                                                              A; Description: oxidoreductase;
                                                                                                                                                                                                                                                                                                                                                                                                A; Cross-references:

SALTO T., Tanaka N., Toyomasu T.;

Submitted (NOY-1996) to the EMBL/GenBank/DDBJ databases.

-!- CATALYTIC ACTIVITY: D-GLYCERALDEHYDE 3-PHOSPHATE + C

+ NAD(+) = 1,3-DIPHOSPHATEGLYCERATE + NADH.

-!- PATHWAY: FIRST STEP IN THE SECOND PHASE OF GLYCOLYSI

-!- SUBUNIT: HOMOTETRAMER (BY STMILARITY).

-!- SUBCELLULAR LOCATION: CYTOPLASMIC.

-!- SUMLIARITY: BELONGS TO THE GLYCERALDEHYDE 3-PHOSPHAT

CATALYTIC ACTIVITY: D-GLYCERALDEHYDE 3-PHOSPHATE + ORTHOPHOSPHATE
+ NAD(+) = 1,3-DIPHOSPHATEGLYCERATE + NADH.

PATHWAY: FIRST STEP IN THE SECOND PHASE OF GLYCOLYSIS.
SUBBUIT: HOMOTETRAMER.
SUBBUIT: HOMOTETRAMER.
SUBCELLULAR LOCATION: CYTOPLASMIC.

SIMILARITY: BELONGS TO THE GLYCERALDEHYDE 3-PHOSPHATE
DEHYDROGENASE FAMILY.

Genet. 25:101-106(1994).

-!- CATALYTIC ACTIVITY: D-GLYCERALDEHYDE 3-PHOSPHATE + ORTHOPHOSPHATE + NADH.

-!- NAD(+) = 1,3-DLPHOSPHATEGLYCERATE + NADH.

-!- PATHWAY: FIRST STEP IN THE SECOND PHASE OF GLYCOLYSIS.

-!- SUBUNIT: HOMOTEGRAMER (BY SIMILARITY).

-!- SUBCELLULAR LOCATION: CYTOPLASMIC.

-!- SUBCELLULAR LOCATION: CYTOPLASMIC.

-!- SIMILARITY: BELONGS TO THE GLYCERALDEHYDE 3-PHOSPHATE
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     01-NOV-1997 (Rel. 35, Created)
